

70 years' coverage of core journals in a wide range of applied science specialties

“Quality of the Wilson database is excellent... Highly recommended.”

— AMERICAN REFERENCE BOOKS ANNUAL, ON APPLIED SCIENCE & TECHNOLOGY INDEX

Special Applied Science & Technology/ Business Periodicals Index Retrospective Pricing

Contact your H.W. Wilson Sales Representative for special pricing on the combined product.

Applied Science & Technology Index Retrospective: 1913-1983

A mandatory purchase for searching 7 decades of scientific advances, in a single source

Applied Science & Technology Index Retrospective: 1913-1983 delivers retrospective content from *Industrial Arts Index* and the acclaimed *Applied Science & Technology Index*—70 years of indexing of core journals in a wide range of applied science specialties. The **unique depth of coverage** makes this a perfect source for tracking down important studies, exploring historical controversies, finding papers by innovators, researching the development of a particular technology, and more.

Covers More than 1,400 Periodicals in Total

- Indexes the most important sources from decades of literature in applied science—guided by a dedicated editorial board throughout the years of coverage
- Makes your library's periodicals collection more valuable, with versatile electronic searching of the content of core journals
- Invites searching of 3.3 million articles—key to a vast range of information!
- Contains the complete files of *Industrial Arts Index* (1913-1957), providing unique coverage of business through 1957

- Compliments your Full-Text databases including JSTOR—19 titles overlap with JSTOR.
- **Time-saving**—access decades of print volumes, remotely.
- **Cost effective**—just pennies per record.
- **Out Right Purchase** (Perpetual License) and annual subscription plans available.

Textile Industry & Fabrics
Transportation
Waste Management

Search Less, Find more

- Updated subject headings make finding information easy with contemporary terms, though original subject headings are also searchable
- Names used as subject headings are standardized throughout the years of coverage, to ensure retrieval of all records about an individual or a company
- WilsonLink SFX-powered technology links citations to any full text available in other OpenURL compatible databases
- Database delivers relevant holdings information, with links to your OPAC
- Search seamlessly with Wilson's *Applied Science & Technology Full Text*, for "one-stop" searching of almost a century of coverage

A powerful research tool for students and educators!

Create formatted bibliographies from search results at a click. Save and email searches. Spell-check names and terms, based on a dedicated subject thesaurus. Plus many other conveniences of WilsonWeb searching!

Updated Subject Headings, Plus Original Subject Headings—All Searchable

OLD HEADING

PLANETS, Minor
TELEVISION, Community antenna
LIGHT amplifiers
COUNTERS (electrons, ions, etc.)
AUTOMATONS
LASERS, Solid state
SPACE vehicles, Reusable
CRYSTAL diodes
Business consolidation
MEDICINE, Proprietary
CALCULI, Biliary
MAGNETISM, Terrestrial

REVISED HEADING

Asteroids
Cable television
Lasers
Radiation detectors
Robots
Semiconductor lasers
Space shuttles
Semiconductor diodes
Corporate acquisitions and mergers
Nonprescription drugs
Gallstones
Geomagnetism
